Announcement: Northern Justice Watch's LIVE Project Supported by The Law Foundation of Ontario

Northern Justice Watch (NJW) is proud to announce that **The Law Foundation of Ontario** has provided generous financial support for our "Legal Understanding and Victim Empowerment (LIVE) Project." This project focuses on enhancing access to justice and legal education for marginalized communities affected by atrocity crimes, including the **Hizmet Movement, Yezidis, Hazaras, and Tigray** populations.

The LIVE Project will provide critical legal education and advocacy tools to these communities, helping individuals navigate complex legal frameworks and better understand their rights under international and Canadian law. Through workshops, legal support services, and targeted outreach, we aim to empower these groups, currently living in Ontario, to seek justice and protection for the atrocity crimes and human rights violations they have experienced in their home countries.

We gratefully acknowledge **The Law Foundation of Ontario's** financial support for this important initiative. However, Northern Justice Watch (NJW) remains solely responsible for all content produced through the LIVE Project.

For more information about the **LIVE Project** or to learn how you can participate, please contact us at **info@northernjusticewatch.org**
